**Does this product work on Windows and Mac Os?** We mostly include the operating system in the title. if it is not written, it will work on Windows, and you can   for the Mac version.

- Fully dynamic trails that instantly update your composition
- You can also add dynamic effects to your design:
  - Line velocity - Have your trails react to whatever velocity they are connected to create some beautiful physicality.
  - Wiggler – Add a little randomness to your lines by using the wiggler
  - Add movement - This is a great way to make your trails feel flowing or to create hair, flags, or faux smoke.
- Trails can be used with any shape layer effect - you can add repeaters, trim paths, and zigzags as much as you like.
- The velocity-based line length checkbox scales dynamically to your trail's velocity.

### How to install

#### Copy the file "Trails.jsxbin" into the following folder:

- Windows: C:\Program Files\Adobe\Adobe After Effects C[xx]\Support Files\Scripts\ScriptUI Panels
