Soundtrack Loops Melodic Techno: Soundtrack Loops intros Melodic Techno Samples & Loops. Melodic Techno is an iconic techno construction kit developed by California producer Dylan Swirkal and presented in a classic style of construction kits. It's a simple track that runs at 124 BPM and features the 126 loops that this track comes with, it lets you compose in minor keys and achieve an instant, benchmark techno sound that's a common experience for all.

It's clean and spacious. you can enjoy your cake and eat it too. A lot of the tunes come with built-in rhythmic effects which provide a smooth and sophisticated drive without overkill. They remain out of each other's ways when you're working on your timeline. giving you the chance to layer them in your tracks while preserving sonic clarity. Melodic Techno is designed for opening up and releasing sounds that effortlessly create a pleasing sound right out of the box.

The way in which the individual instruments are separated (arpeggios basses, arpeggios components FX, synths, and drones) and their ability to be stacked, makes Melodic Techno a good choice for creating long and flowing strings of music that builds with time, reaching the precise amount of intensity you desire. With this track, you can explore techno right from the beginning, with all the dynamism and syncopation, repetition, and crisp, pristine fidelity that makes techno great to its core.

As is the norm for all loops made from The Soundtrack Loops team, Key and BPM are included in metadata as well as the names of the files.

Features: 126 Royalty Free Loops | Universal. WAV
