**Unity Asset - GhostSamurai Bundle v1.0:** Introducing the GhostSamurai Combat Animation Package, featuring over 500 meticulously crafted animations designed for seamless integration into your project. Whether creating an epic battle scene or a stealthy infiltration mission, these animations provide the depth and detail to bring your GhostSamurai character to life. Utilizing the Humanoid rig, each animation is tailored for optimal compatibility and realism.

The animation repertoire spans various combat scenarios, including wielding the bow, executing precise katana strikes, and engaging in dynamic movements such as dodging and crouching. This package offers unparalleled versatility, comprehensive sets for ranged and melee combat, and in-depth animations for everyday actions like movement and defence. Additionally, each animation set comes in two versions: in-place and with Root Motion, providing flexibility to suit your project's needs.

The package includes detailed weapon models for the katana and bow, complete with attachments for both hands and returning to zero position for easy integration. Simple mesh models for the katana, sheath, and bow are provided, ensuring a cohesive visual aesthetic throughout your project. Unlock the full potential of your GhostSamurai character with this extensive combat animation package.
