

## Just Sound Effects Stones and Debris WAV-ViP

2025-02-10 17:05:43    [label](#)    [我要反馈](#)    [下载页面](#)

The collection is packed with cracking, breaking falling, rolling, shattering, rattling, and dragging of rocks, stones, pebbles, bricks, gravel, sand, and porcelain Stones and Debris gives an impressive collection of realistic sound effects. Utilize the recordings to create all kinds of stones, from the dropping dust and tiny falling stones to massive rock avalanches, or massive destruction.

Alongside the source recordings, the package also comes with a variety of sounds designed for destruction. These include falling walls and buildings massive cracks, landslides and cracks, and dumping debris. These sounds can help in the event that the city is attacked, and homes collapse following an earthquake or an explosion.

### Recorded WITH ACOUSTIC SECURITY

We've made no sacrifices in creating a versatile instrument for recording stones. Apart from the sessions we have inside our lab, we recorded the sounds from quarries abandoned structures, forests, and volcanic landscapes in order to collect as many varieties of stones and rocks as is possible. Stones and Debris allow you to use the most flexible tools to layer, alter or make new sounds. It also gives you detailed textures for your designs.
