

Easy Brush Variation ZBrush Plugin

2025-02-10 17:11:44 [label](#) [我要反馈](#) [下载页面](#)

Easy Brush Variation ZBrush Plugin: Easy Brush Variation is a plug-in for ZBrush that allows you to create totally diverse variations for your brush. It also lets you make alpha.

In this way, it will assist you in sculpting organic shapes in a way that isn't predictable. Even with one alpha, every stroke will appear different, just as it occurs in nature.

It can be useful in sculpting models like skin, stone or bark, ground as well as many other natural features.
An essential tool for organic sculpting using ZBrush!

- **The interface that collapses:** Set the settings and then reduce the right portion of the interface to ensure it doesn't clog your screen.
- **Perform each variant manually, or run an automated timer** that produces changes every one second.
- **Set the interval between changes for your duration** between 1 to 10 seconds.
- **The brush should be rotated in each of the runs, using a variety of ways.**
- Add a certain amount of sound in the paint for every variation. The maximum amount of noise can be set using the dial.
- **Alternative** normal or inverted alpha.
- **The size of the font and the amount** between the value of the dials.
- **The color is randomly chosen** for polypaint: select any color, and then choose from four different variations gradients. Choose the degree of contrast between colors by turning the dial.
- **Secure the gradients** you would like to keep.
- **The settings are saved** to be used each time that you start the plugin.
- **Return to the original values** in just one click.
- **A PDF tutorial.**
- **Video tutorial** that you can discover via YouTube (in the channel we have) however, it's included in our product for future information.
- Compatible with: Windows 10, 64 bits. ZBrush 2021.6.6 and higher.
