**Kinderbella – The Sandstone Collection Newborn** is a versatile set of presets designed for newborn and studio photography.

### How to apply black-and-white color presets to your images in Lightroom?

You can use "Kinderbella – The Sandstone Collection Newborn" to edit your images.

It includes 24 presets with up to 4 variations each, totaling 22 color presets, 2 black and white presets, and a 'Helper' preset to remove natural lens vignetting. Tested on images from CANON, NIKON, and SONY cameras, the collection also features a BONUS Finishing Action workflow for Photoshop CC, offering level adjustments, tone enhancements, and a red remover. The presets in this set are named after various minerals and geological materials, providing a wide range of creative options.
