VFX Smoke Effects for Premiere Pro VH-37122130: VFX Smoke Effects is a smoke simulation element template that can be used for VFX motion graphics, titles, transitions, and more. It can also be used to create video backgrounds and overlays. Each piece has a programmable color controller, which means you can colorize the elements with a variety of colors, and create incredible colors, as well as transitions and effects.

- 1920x1080 resolution
- 30 FPS
- Adjustable Colors
- Help file available
- Works with Premiere Pro 2019 and above
