Unreal Engine - Bike Control PRO - The best motorcycle control: Introducing the ultimate solution for implementing a two-wheeled motorcycle in your game: our asset offers unparalleled realism and control, perfect for arcade-style gameplay. With features designed to enhance immersion and performance, this asset is a must-have for any racing or action game developer.

- Physics Substepping: Utilize physics sub stepping for precise control and realistic behavior.
- Motor Sound: Experience the thrilling roar of the motorcycle engine with immersive motor sounds.
- Procedural Animation: Enjoy dynamic character animation and inverse kinematics for a lifelike riding experience.
- Burnout: Perform epic burnouts with realistic tire smoke effects.
- Functional Lights: All light bulbs on the motorcycle are fully functional for added realism.
- Wheel Sounds: Experience authentic wheel sounds and impacts for heightened immersion.
- Gear Switch and Exhaust Sounds: Hear the satisfying sound of gear switches and exhaust pipes.
- Mobile Fluid: Witness fluid movement in expanding barrels for added environmental detail.
- Dynamic Bike Tilt: Configure bike tilt along curves based on speed for dynamic gameplay.
- Maximum Stability: Experience unparalleled stability, even on uneven surfaces.
- Engine Braking: Utilize engine braking for precise control during deceleration.
- Stoppie Control: Perform controlled stoppies with ease.
- Tire Traces: Leave realistic traces from sliding tires for added visual flair.
- ABS: Experience the benefits of anti-lock braking systems for improved control.
- Dynamic Chain: Witness the dynamic movement of the motorcycle chain during gameplay.
- Customizable Materials: Customize your sportbike with 28 fully customizable materials.
- Joystick Support: Enjoy support for analog joysticks for enhanced control options.
