H2O Droplet Simulation v1 – Blender: Introducing H2O: A Cutting-Edge Geo Nodes-Powered Realistic Droplet Simulation Tool for Blender!
New Feature Alert: Animated Mesh Compatibility!

H2O is designed to push the boundaries of realism and creativity, offering an advanced toolset within the Blender environment. Embrace the future of fluid simulations with H2O!

- Now, unleash the power of H2O on animated meshes. Imagine quickly adding realistic tears to a crying character or enhancing dynamic fluid simulations.
- Convenient Library Addition: H2O Curves Package
- Explore the simplicity of the new package, H2O Curves, seamlessly integrated into the library for enhanced usability and efficiency.
- System Requirements: Blender Version 4.0 and Above
- Experience the full capabilities of H2O by ensuring you are using Blender version 4.0 or later. Please refrain from using older Blender versions, as H2O harnesses the latest features in Geo Nodes.
