**Embrace Nation – The Eclipse Workflow- AI Powered Effect Presets:** The first AI-powered Presets to use with Lightroom and ACR are now available. With the brand-new Lightroom tools for masking, you can now modify specific parts of your photos with presets. AI masking presets allow you to modify local settings to specific parts of your images. I.e., Background, Subject Sky, even a part of the body, such as face, lips, or hair, or let you select one individual from a set of users to edit. With "masking" or hiding areas of your photographs, you can apply selective adjustments that don't affect other parts of your images. The AI feature dramatically increases the speed of masking as well.

The best part is that the Masking tool isn't destructive and allows you to experiment with various settings without worrying about causing permanent damage to your images. The Eclipse Workflow lets you add Haze, Warmth, Fog, or any other effects to your photos in addition to your default preset. You can adjust the settings or give an extra touch to the final edit. The Eclipse Workflow can be used for both indoor and outdoor images. Included are 25 AI-powered effect presets: Background: Darken Background Fix Green Background Haze Background.

Morning Mist Background Shallow DOF Background Sunset Glow Background Sunset Haze Background Warmth Indoor - Foggy Beach Indoor Magic Indoor Pro-mist Persons - Hair Soft Preset Fog Preset Dark, as well as Foggy Sky, darken background Sky and Storm Clouds Sky - Sunset Sky Sky - Sunset Storm Subject Rebound back the Light Subject Brighten/Desaturate Subject - Fix/Desaturate Skin tone Subject Gold Rush Subject - Sharp Subject Skin so Soft Subject warm The Softness Note that you require the latest Versions of the LR software and ACR for this to function correctly. The images shown were edited using a preset and an Eclipse Workflow to complete the photo with a specific effect.
