PuppetTools 3 Is Also an easy to use rigging Instrument for After Effects which can save you hours of effort.

A Simple to use rigging tool for After Effects which Will save hours of effort. Make customized controls for whatever and insert IK in 1 click.

Set an IK program in 1 click. Use it to make exceptionally Customized controls for puppet hooks, shape coating route points, and virtually anything else. Plus it works on any kind of art (.psd, .ai, shape layers, etc.).

Can I mention it was user friendly? I was not joking. It is only two buttons.

- 1 click IK setup
- Create controls for only about anything
- New assistance for Form Layer and Mask paths! (Requires CC 2018)
- Customize the appearance, size, title, and behavior of controls
- Works with Any Sort of an art
- Super simple to use
- Has a FREE clinic rig
- Customize and create controls for Any Type of art --Photoshop, Illustrator, PNG, Shape Layers, whatever!
- Has a FREE rig called Lucy
- If you are running CC 2018 or newer, then you can create controls for Form Layer & Mask paths!

Produce Controls

This lets you create controls for only about Anything After Effects and join them using an expression. It functions together with puppet pins, form coating paths, mask avenues, and coating positions.

Produce IK

A 1-click IK setup Supposed to be as straightforward as possible. Select 3 layers, rather in a Sequence, click Produce IK and you also experience an IK program. You do not even need Controls --use it on any 3 layers.
