Serpens v3.3.3 – Visual Scripting Addon Creator: Serpens, a revolutionary node-based scripting addon for Blender, empowers you to craft genuine Python addons effortlessly. No coding is required. Whether you're envisioning a straightforward panel with frequently used buttons, enhancing your workflow with a pie menu, or developing more intricate creations for online sharing, Serpens makes it all possible through intuitive nodes.

This addon caters to seasoned Blender users and serves as an ideal entry point for those eager to delve into the Blender API and kickstart their Python learning journey. Serpens offers tools to seamlessly integrate Python code, allowing you to visualize and understand the generated code and facilitating a hands-on learning experience.

Key Features:

Updates in Version 3.3.3:

- Write Text File Node: A new addition to expand your capabilities and streamline file-related operations.
- Watch Script Change Option: Stay in control with the ability to monitor script changes, providing a more responsive and efficient workflow.
- Bugfixes: Continuous improvements to ensure a smooth and reliable experience.

Whether you're a seasoned Blender artist or a Python novice, Serpens empowers you to unlock the full potential of Blender's scripting capabilities with ease and creativity.

- Node-based Editor: Craft intricate interfaces with the simplicity of node-based design.
- Addon Creation: Generate installable Python addons effortlessly, eliminating the need for manual code writing.
- Interactive Modals: Create engaging and interactive models for a dynamic user experience.
- Geometry Nodes Interaction: Seamlessly interact with Blender's powerful geometry nodes through Serpens.
- Blender UI Integration: Add your creations directly to the Blender UI, enhancing accessibility and usability.
