MotionVFX m16mm – Retro Film Effects Plugin for Final Cut Pro: Unlock the charm of the past with our collection of 30 retro effects specially crafted for Final Cut Pro and DaVinci Resolve. These ready-made, pre-animated compositions offer vintage film aesthetics with easy customization options.

Experience the steps to transport your viewers back in time:

- Select your ideal shot.
 - Choose a frame to evoke a dreamy mood.
 - Add captivating distortion effects.
 - Experiment with hue and light adjustments to perfect your look.
- Stunning nostalgic stylizations
 - Grain: Recreate the organic noise of authentic analog footage.
 - Distortion Scratches: Add dirt, dust, or hair for vintage film aesthetics.
 - Prism: Distort colour channels for diverse results.
 - Saturation & Brightness: Adjust tone, saturation, and brightness.
 - Highlight Glow: Soften light in bright areas for a dreamy scene.
 - Jitter Variance: Simulate real film projector shakes for dynamic effects.
