

RC Lightroom Desktop Preset Pack (XMP)

2025-02-10 16:50:03 label 我要反馈 下载页面

These RC Presets have been professionally designed to give your photography that extra boost it needs.

These presets are warm, timeless, and beautiful. I share them with you to get the same stunning results without having to spend hours in Lightroom.

Introducing RC Presets – 1st Edition

Original Glazed - This is the base preset that I use for most of my photography. This versatile base can be used to create soft, glowing skin, rich contrasts, and muted greens.

Lusty Glazed - This is the warmer, muted version of the Original Glazed if you want a cozier, more subtle look.

Breathe easy (Light and airy) - A fine art base preset - for natural blue light. Use when there's lots of light

Sundaze Increase temperature to get a golden hour glow from the evening sun.

Stay Gold - For romantic sunsets and golden hour photography for an ever-dreamy, sun-soaked look

The RC presets can't be used as a quick fix for all your photography needs. You must apply the correct exposure and settings.

- To work correctly, RC Presets in Adobe Lightroom need Lightroom Classic CC (or Lightroom CC) to be used.
- Presets can only be used with RAW files, not JPEG files.
- Preset files can be downloaded on a computer or mobile device.
- Limit on downloads is one-time
