Blender Market – Engine FXs v1.1: Effortlessly craft mesmerizing engine burst effects with this procedural asset pack designed for Blender.

WHAT'S NEW in version 1.1:

- **Powered by New Simulation Nodes in Blender 3.6:**
 - Introducing 3 New Trails Effects
 - 2 New Particle Simulation Effects
 - 1 New Preset
 - For Blender 3.6x and above users
- **Less Geometry Nodes Experience Required:**
 - Easily use this asset pack without extensive knowledge of Blender's powerful procedural mesh generation tool, Geometry Nodes.

Pre-Made Effects: This pack includes nine pre-made engine effects, allowing you to seamlessly drag and drop them into your scene.

Assets Library: All effects and building blocks are organized, categorized, and color-coded with custom icons, streamlining your workflow.

Make Your Own: Empowering you to create your unique engine thrust effects, the pack allows you to drag and drop "Tail" or "Shape Array" elements. Customize as desired, add an "Aura" with a simple drop-in of "ShapeAura," and utilize a pre-made setup for effects facing the camera. Basic materials and custom shader groups facilitate the creation of unique materials. Start the engine with "Engine StartTimer" once your effect is ready.

Benefits:

- Save time and effort with pre-made effects
- Leverage the latest Simulation Nodes for enhanced results
- Easily create unique engine thrust effects
- Quick start with the user-friendly interface
- Learn Geometry Nodes at your pace
- Suitable for commercial projects
