- **LEARNING:** As grasping designers, incorporating accuracy, performance, and innovative craftsmanship with remarkable concepts are what we do. That's why Sequoia is a true icon when it pertains to mastering. With a distinct object editor, thorough phase as well as peak meters, premium plug-ins, and also indigenous audio reconstruction, the software satisfies all professional needs.
- **AUDIO PRODUCTION:** The success of a complex audio production depends on every information and subtlety. With this property in mind, we've created functions for source location cut as well as multi-synchronous cut. This permits you to incorporate different performance recordings into a solitary whole in the blink of an eye.
  BROADCASTING: Time is a crucial factor in broadcasting. Because of this, Sequoia provides a straight link to broadcast CMS as well as automation systems. Thanks to the powerful sound engine, you can edit a product during a live recording and send it to a programming terminal with a minor hold-up.
- **POST-PRODUCTION:** Sequoia is a constant in an ever-changing industry. This is due on the one hand to the software application's high stability and also reliability, on the other to the close partnership between our group of developers and recording workshops, TV terminals, and also broadcasters. With these industry connections, we remain in the recognize - so this allows us to focus on developing and also offering the marketplace includes that are really needed in post-production.
- **MUSICIANS ON SEQUOIA:** "Sequoia actually changed the method I grasp, specifically the things editor." Heba Kadry Combining and Mastering Designer References Björk, RAC (Tearing Me Up Remix, Grammy-winning), Alex G, Jackie OST (Mica Levi), Neon Indian
