Project　　After Effects

Keyboard Login Explainer for After Effects is a vibrant animation template that showcases hand-drawn cartoon scenes of various users (a girl, a man, and a cat) logging in with their username and password.

How to design Project explanatory films using templates for cartoon scenes in After Effects?

You can design your project using "Keyboard Login Explainer for After Effects".

This template is ideal for explainer videos, user interface demos, online services, website tutorials, and online presentations. It offers full-color control, and customizable text placeholders, and includes font links and a video tutorial. Compatible with After Effects 2021 and above, it supports 4k resolution for high-quality digital content.

Package information

Updated and published on June 5, 2024, this After Effects CC project includes 12 text placeholders and comes with all necessary After Effects project files.
