

# Trapcode Magic (Videohive 33139809) - AE Project

2025-02-10 16:57:41 label 我要反馈 下载页面

Trapcode magic, our new VFX pack, is all about capturing magic on the big screen and letting your audience enchant you with the same computer-generated effects.

The magic of wizarding has been fascinating to see onscreen, from Harry Potter's world to the origins and adventures of Fantastic Beasts. Now you can experience it like never before by creating your own stories and recreating your favorite moments from the series.

Trapcode Magic goes beyond a fantasy library with spell presets. It's about reliving the joy of experiencing the films for the first time and rediscovering the feeling of going back to a time without limitations... to a world where everything is possible!

You can unleash your imagination to create anything you like, including ancient and mysterious charms such as the Patronus light. This magic can be easily tracked down to the business end with a wand. In just a few clicks, it becomes real!

This is the Magical effects pack you've been waiting for. Now it's your chance to make magic happen in After Effects. It supports both Trapcode Particular V5 (V4.1.5) and V4.1.5, so you can learn the art in any legacy. After Effects (CC 2018 & CC2020) are compatible.
