Portrait Drawing in Charcoal by Ashish Kumar Patel: This Portrait Drawing Charcoal course covers a variety of aspects of drawing portraits with Charcoal.

Charcoal is a slick material that resembles chalk pastel. The dark substance is available in various forms, soft and hard. But generally, it gives an excellent sketching experience. It provides incredible depth to the drawing, particularly if you're making a design that features dark shadows. The dark and rich tones of charcoal aid in creating a contrast between shadow and light, similar to the principles of Chiaroscuro.

Charcoal creates a wide range of depth and texture in the drawing. Charcoal is an excellent medium for drawing portraits to model and develop the specifics of characteristics.

You'll be able to comprehend the following:

- Learn how to create the Portrait step-by-step
- Knowing the subtleties of shadows and light and creating three-dimensional shapes
- The creation of various textures by using the medium of Charcoal
- How do you perfect the look of charcoal Portraits like Professional
- Understanding how to utilize various kinds of Charcoal and papers.

If you've not yet tried this approach when drawing portraits in Charcoal, consider giving it a "Thumbs up." The charcoal medium is ideal for those just beginning to get started. It is a great way to start and gradually refine with time.
