On1 Sky swap AI 2023.5 17.5.1.14051 (WIN, MAC-17.5.1.14028):

Sky Swap AI makes replacing or adding a beautiful sky easily. It analyzes any sky visible in your photograph and creates an amazing mask automatically. Select any of the included 231 skies or create your own. 125 of the included skies originate from OcuDrone the leading supplier of high-resolution aerial photos. The AI technology for replacing skies integrates machine learning and stunning sky curated to remove the need for complicated layers and masks that are normally required for other editing programs.

Automatic Sky Replacement

AI recognizes sky patterns and makes an excellent mask that blends into the new sky.

Use Your Skies

Have amazing skies? They can be imported into Sky Swap AI and used in a way that is automatic.

Easily Adjusted SkiesEasily Adjusted

The Sky Swap AI-generated mask Sky Swap AI is easily altered to let you blend into the existing sky, or completely replace it entirely.

Flip or Rotate SkiesFlip or Rotate Sky

You can also alter the horizon as well as the rotation of the sky. It is even possible to flip it in the light direction.

Natural Results using Sky Swap AI

Sometimes, you may not wish to alter a sky entirely; instead, you'd like to incorporate other clouds, like. AI Sky Replacement includes everything you require to blend a new sky with the one you already have.

All the Tools You Need

Local adjustments allow you to avoid and burn, alter sharpness, color, and much more in the foreground.

Make sure you crop your final piece to the desired size.

Retouching Tools are used to get rid of dust and distractions from the background.
