The only pack of presets you'll ever require. I fully understand the feeling of feeling lost or overwhelmed as you first begin editing. This is why I've come up with 15 presets to help you get on your way. The colors are extremely versatile and can be used in virtually any setting. From subtle shading, faded designs to black and white. The entire purpose of this set of presets is to allow you to create a solid foundation for your work and to gain a head start in the game. Best of luck to you all, and thanks for all your assistance.

The presets are only used within Adobe Lightroom and Lightroom CC.
