Sikky Beats Monarch Experience v1.1 (WAV, MiDi):

This is the MONARCH EXPERIENCE.

With the world battling an epidemic that is spreading across the globe, and music stores and studios shut down I needed to think of new ways to incorporate sound into my design.

For this album, SIKKY turned to major producers and artists from the Hip Hop and R&B space such as OZ Boi-1-da and J-Louis as well as Mike Dean for inspiration.

Gfx plugin details of Sikky Beats Monarch Experience + v1.1 (WAV, MiDi)

The product is in the **SOUND EFFECTS** category, for more information about this post you can click on the home page link in the sidebar.

As an artist, I know what other producers are looking for and require when it comes time to try new sounds. I know that when we hear new sounds, we are inspired, and thrilled and challenge the boundaries just like I did with this track.

When we combine unique and useful sounds together with sounds that are a bit bizarre and RADIOACTIVE, we create something which is completely foreign to our ears!

One thing I really took time and thought about with this kit was how it was arranged. Why would you get out of the moment by looking for a generic clap when there is a folder just for the "RECYCLED" Sounds? Sometimes, you'd rather have something original and unique, but at times you need the best, and I'm all in favor of this!

Furthermore, the EXPERIENCEplus (EXP) version will also get updates over the next few months with more sounds.
