Sweet Soul Studios – Dreamy Blur Collection:

The "Dreamy Blur Collection" is a comprehensive set of 37 actions designed to enhance outdoor photography by applying various blur effects and color adjustments to create beautiful portraits.

This collection complements existing outdoor photography tools, focusing on different levels of lens and focal blurring (subtle, medium, and dreamy) and includes both mask-on and one-click options for different focal points.

Additionally, it features color adjustments like "creamy and hazy," various green tones, and autumn-inspired hues. Also included are "all-in-one blur transformations" and "lower gradients" for specialized effects.

Extra adjustments allow for fine-tuning contrast, saturation, and color tones, enabling photographers to achieve their desired aesthetic effortlessly.
