Aescripts Mask & Layer Splitter is a versatile script for After Effects that simplifies layer and mask management, enhancing productivity and creativity.

Its intuitive interface offers tools to streamline tasks like separating masks into individual layers, batch renaming, pre-composing with automatic cropping, and offsetting layer start times.

Optional modifiers allow for added flexibility when splitting masks, such as creating reference layers or removing them post-split.

The script integrates seamlessly with KBar, enabling faster workflows through customizable toolbars. Whether for simple animations or complex projects, Mask & Layer Splitter optimizes efficiency while maintaining creative focus.
