How to Change Color?

Change the object color; it's straightforward. All you need to do is:

- 1. Click one of the objects you want to change
- 2. go to Material Properties, there are two tabs Base Color and Random Color, click a Base color, and the color picker will pop up.
- 3. then you can change to any color you like. Change the random color, too, so you can have more variation.

How to Move, Rotate & Scale?

To rotate and scale the object color it's very easy. All you need to do is:

- 1. Click Plain Axes below the object (Look image). Not all the objects have plain axes
- 2. From there, Press S to scale the object and Press R to rotate the object
- 3. Same as rotate and scale. To move the object, click plain axes below the object and press G to move the object

- High Resolution
