Briskland, Professional 3D Explainer Toolkit VH-34486672:

15X Faster:

Although most templates utilize rendered videos as their primary source, our latest solution offers 8K rigged characters, without video assets, and played fifteen times more quickly than identical templates of the past. 8K video sources were too large and slow to play.

8K Elements:

It allows you to zoom in to 8k elements on your Full-HD or 4k projects. Additionally, you can make high-quality 3D animations.

Modern-style

Briskland 3D Explainer features an artistic style that is in line with the latest trends in graphic design. It lets you create eye-catching artwork with ease.

Comprehensive package

It has everything your requirements for creating a stunning motion graphic for your storyteller, as well as an extensive collection that includes animated components. Since our team had over twenty years of experience in the motion graphics and animation industry, we analyzed every aspect of production and customer expectations.

No plugin required

We used Duik to develop the product, it's not required to install any plugins in order to use it.

Simple to make use of

It's so simple to make use of. It is possible to explain your story in a couple of clicks. Simply add animated characters as well as backgrounds and additional elements.

A handy catalog extension

Install the extension for fast access to your elements, and then insert them by a single click. Additionally, you can create character actions with just only a couple of clicks. You can also change the options and placeholders too fast.

Full control with customization

Control your 3D world with complete custom color control and lots of placeholders.

- Different talking, pre-animated and custom-designed characters can be used for numerous uses.
- Many different 3D places.
- Functional, customizable typographies.
- Mobile phone screens that include mockups of well-known social media pages and websites.
- Computer mockups and desktop collages from social networks as well as websites.
- The logos reveal your company's image.
- The complete package is comprised of 3D animatable objects.
- Motion shapes, creative transitions elements.
- Video promo to describe videos.
- Speech bubbles to represent characters.
