TikTok Stories Pack - AE Project VH-35865129: After Effects, stories pack for creating a chic promo for your TikTok channel on Instagram or other social media platforms on the internet. Present your profile or your product with this intro - just add your message and the username of your profile along with the most popular hashtags, as well as the most interesting videos. The package contains 15 stories.

Utilize bright colors, imaginative and expressive animations for text, and visual elements such as eye buttons, rings or hearts ribbons, hashtags, ribbons, and speech bubbles that contain text. They appear floating on the screen, highlighting your message. These elements can make your video more fun, joyful, and inspiring. Make use of speech bubbles and ribbons to communicate your message.

iPhone mockups play your videos on screen as if people are watching them in real reality. It is possible to present your content in the way you want to. This is the most effective way to present your channel's content to potential advertisers or create an overview of your efforts on TikTok.

- Color control
