- M16 - Vivid Coastline 2

### What can we Expect...

The presets are made specifically for summer. They include coastlines palm trees, ocean, and tropical beaches I make use of these presets as the basis for my photos.

The purpose of pack purpose is to simplify your editing process and create a more dramatic aerial photo!

**Be aware that** these presets be most effective with raw images. Each image is unique so be sure to adjust the settings to your preferences for optimal results.
