

UI8 – Web Icons Real Estate

2025-02-10 16:59:12 label 我要反馈 下载页面

UI8 – Web Icons Real Estate: 100 Real Estate icons for real estate websites and applications. The library includes most of the building types used for the residential real estate sector, from tiny homes and small houses to industrial buildings and apartments.

How to use icons to use SVG technology?

You can use "UI8 – Web Icons Real Estate".

Where can I download the product?

After subscription, You can download it for free from here.

The package includes 50 distinct icons that are available in two different styles to create a total of 100 icons. The icons are styled in neutral gray, have a soft hue, and are easily customizable to suit every color palette.

The icons were created to use SVG technology, such as multipoint gradients and box shadows, which let me create a unique sense of depth with the 11 icons.

The formats offered are the native Figma(.fig) file, the native Sketch(.sketch) file, and the export .svg files. The SVG files are opened using Adobe Illustrator or XD, but there are no shadows in the first four styles since these programs don't allow all SVG filters; hence I recommend using Sketch or Figma.

- 100 total icons
- 100% Vector
- Produce ready SVG with a minimum number of nodes
- Two styles
- Figma Sketch, Figma, and SVG formats
- HTML Ready, individual icons

What is Web icons real estate?

Web icons for real estate websites often include various symbols and images related to properties, homes, buildings, and other real estate elements.

When using web icons for a real estate website, it's essential to choose icons that align with the overall design and messaging of your site. Additionally, ensure that the icons are easily recognizable and scalable for various devices. There are various icon sets available online, both free and premium, that offer a wide range of real estate-related icons for web design.
