Blender Market - Easy House Generator

2025-02-10 16:37:17 label 我要反馈 下载页面

Easy House Generator is a useful Blender add-on that allows users to create interiors with just only a few clicks.

You can build walls and doors, windows, staircases, and many other elements, then move them around using precise snap controls.

alter materials and even make your own elements to include in the library.

Easy house generator includes 16 pre-built parts.

Each component comes with its own set of materials.

Browser

Browse through the library, pick the item you want to add, and click create to include it in your scene.

The Precision Snap Controls

You can move it around using the snap buttons to rotate, duplicate, and snap it back to as an object that is active.

Material Switch

To switch the material, simply open the shader and connect the already-built node.
