Holographic Iridescent PS Action 6357736: This photoshop action is inspired by the beautiful hologram designs. It retouches your photo with iridescent touch and adds geometric shapes and typography accents. This action allows the user to define aesthetic parameters such as the frequency of blob design, for example.

Keep your Photoshop Preset Manager neat. Only one pattern image is required to be loaded. No extra brushes, gradients, shapes, etc.

The fundamentals of traditional graphic design were used to inspire the visual aesthetic: grid-based proportions and balanced composition.

- Every time, different results
- Image output at 1800px or 3600px in height
