This is a brand new project to use your videos or photos which is completely created in AE.

No prerendered elements.

25 placeholders to place your photos/videos as well as text.

15 scenes

It is always simple to use. You just need to place your video or photos in a separate composition and then compose your text for each scene. The Font is free to download using the below link.

I used music by famous writer kristijanf and it is perfect for this project.

Element 3D v.2 is required.
