ZIP Content

- DIGITAL PEN Photoshop Action from RedVokinputs.atn
- DIGITAL PEN_Brushes. abr
- Assist File.txt

The best way to configure Photoshop To utilize activities.

1. Ensure that you are using the English version of Photoshop. Each Action was produced and optimized to operate with the English edition of Photoshop, therefore please be certain you are using this variant.
2. Utilize the RGB Mode and 8 Bits color. To test these settings, proceed To Image->Mode and assess the"RGB color" and then"8 Bits/Channel".
3. Make Sure the option"Insert'copy' into Copied Layers and Groups" is switched on. This choice applies only to CS5 and after versions of Photoshop. About the"LAYERS" panel, then click the menu, go to"Panel Alternatives...", also check the"Insert'replicate' into Copied Layers and Groups" will be Turned on.
4. Use a photograph with 72dpi or even higher. If You're using a photograph with Less than 72dpi, the activity won't work properly. To Repair this, visit Image->Image Size and boost the settlement value.

The way to unite my activities?

1. Open your photograph
2. Perform the very first task
3. Save the result as a picture
4. Open the previously saved picture
5. Perform the next task
