The planet we live on has **an amazing sonic spectrum**, and each season, nature gives us an amazing and diverse sound composition. We've captured the most intriguing and memorable sounds in the only way that accurately reflects the sound of Earth as accurately as is feasible: using **the renowned Schoeps OrTF3D Surround Set**. Make use of these premium sound effects to design your designs with the most authentic sound that is possible, starting from the beginning **using 3D Surround or Stereo**.

alters.

The cool breezes, the chilling tonal winds, the soft sound of snowflakes trickling frozen rivers that are recorded from various distances, gnarly winter storms, and gentle animal activity. All this and more are waiting for you in the incredible collection of ambient sounds within this collection.

SET THE STAGE FOR EMOTIONS

It doesn't matter if you're looking to let your audience in on the blissful escapist nature documentaries or build suspense in the midst of a cold and bitterly cold conclusion, **SEASONS OF EARTH. The Winter season lends** its stunning beauty to any imagined scene.

While it complements narration, dialogue, music, or sound effects well, It also sounds great in its own right, such as when you open the scene prior to other audio cues being added.

STRONGER VERSION IS INCLUDED

In addition to the full 3D Surround experience, The stereo version is available with the purchase of 3DS and comes with the same sound material and the ability to produce for other formats.
