### Most important instruction:

- It is the first thing to do opening the image inside Photoshop. After that, you can expand the area around the image to achieve the most effective result. Select the Background image that you would like to use, make use of the crop tool in the toolbar, and then expand it until it covers all sides. You must then alter the size of the image. To change the size of your image choose the crop tools. On the top menu bar. There are W x H Reso, three empty boxes. Enter W3000px. H 2000px and Resolution 72. Enter.
- Open your image, make another layer completely and change its name to "paint" (in lowercase). Select a brush and then paint your image. Close your "paint" layer eye and continue to choose the "paint" layer Then click play action.
