Blender Market - Kritz Cam Pro is a Blender add-on designed to streamline adding and dealing with cameras in a 3-D scene. It simplifies camera setup by providing clean management over cognizance, constraints, focal lengths, and F-STOPS, saving time for customers operating on both technical and inventive elements of 3-D visualization. The add-on is ideal for customers searching for efficiency and versatility, even as handling a couple of digital camera settings and scene compositions.

Includes:

- **Camera Management:** Quickly upload cameras with focus management and constraints.
- **Focus Control:** Simplified digital camera focus and constraint adjustments.
- **Fixed Focal Lengths:** Includes seven predefined focal lengths for convenience.
- **F-Stop Adjustments:** Access to 11 F-STOP settings for aperture management.
- **Quick Navigation:** Easily transfer between a couple of navigation modes.
- **Pie Menus:** Focal lengths pie menu for rapid changes.
- **Composition Tools:** Menu with composition guides for better framing.
- **Passepartout Control:** There is a new menu function for Passepartout modifications.
- **Scene Light Management:** Random color generator for scene lights.
- **Updated Design:** Renewed menu design for a more intuitive interface.
- **Shortcuts:**
 - **Kritz Cam Pro Menu:** Shift + Home
 - **Focal Lengths Pie Menu:** Control + Home
