

blendermarket – Blooming Flowers – Geo Nodes Curve Asset Pack

2025-02-10 17:10:43 [label](#) [我要反馈](#) [下载页面](#)

The **Blooming Flowers - Geo Nodes Curve Asset Pack** is a comprehensive asset pack for Blender that features a variety of fully customizable, realistic blooming flowers. It includes two versions of flowers: V1 with Cherry Blossom, Jasmine, Lavender, Orange Blossom, Orchids, Plumeria, Roses, and Violet, and V2 with Dahlia, Daisy, Foxglove, Hibiscus, Lilac, Lily, Sunflower, and Tulips. Each flower can be animated from bud to full bloom with adjustable growth, rotation, and randomness. The pack provides detailed instructions for using the flowers, including setting up Bezier curves, adjusting bloom cycles, and handling potential issues with Blender's performance. It emphasizes customization options, procedural materials, and tips for creating natural-looking animations by offsetting keyframes.
