Making tribal house sounds using modern technology gives this mix a real cross-over feel that will also please those who love to dance and chart-toppers.

Utilize our loops straight from the box to get immediate sonic pleasure, or go involved and creative in programming by using REX files and single hits for the ultimate music-making.

Music lovers who love labels and artists like Spinnin Deep, Aus, Defected, Toolroom, Claude Von Stroke, Hot Since 82, Dusky, Hot Creations as well as Maceo Plex, will find this package essential to their arsenal of sonic instruments.

All loops are of high-quality 24-bit Wav, with key-labeled and tagged where needed and synced to 124BPM.

What is Soundbox Supreme Afro Tech (WAV, REX)?

"Afro Tech" suggests that this particular sample pack focuses on sounds and elements associated with Afro House and similar genres that blend African rhythms and percussion with electronic dance music elements.

That the sample pack includes audio files in both WAV format and REX format. WAV files are standard audio files that can be used in a wide range of audio software. REX files are specifically used with software that supports audio loop slicing and manipulation, allowing users to adjust the tempo and rhythm of the loops without affecting the pitch.
