Vishopper - The Ultimate Green Collection:

This collection of 199 plants is tailored for enhancing architectural renderings with realistic vegetation, divided into five themed sub-collections:

- Green Collection
- Green Collection 2
- Green Collection 3
- Evergreen Collection
- Tropical Collection

Each subset offers unique plant types that allow architects and designers to bring a diverse and natural look to their visualizations, suited to different environmental aesthetics, from lush tropical themes to year-round greenery.
