Mist & Fury Indoor & Outdoor Preset Bundle:

The Mist & Fury preset packs offer a range of options for achieving a soft, filmy, and grainy look in both indoor and outdoor settings.

Original Outdoor Pack: This pack features 34 presets that combine warm and cool tones, providing beautiful color contrasts and green tones. It includes nine main presets with variations for moodier and red tones, as well as 11 adjustment presets for easy customization. Users can keep edits simple or create a more painterly effect by removing grain and adding brushwork.

Indoor Pack: Comprising 12 presets (six main plus bold versions), this pack delivers effortless, beautiful looks with warm light and cooler highlights. It also includes a quick adjustment preset to remove grain and achieve a classic or creamy style.

Both packs come with PDFs offering tips for adjustments and are compatible with custom profile sliders for tailored effects. The effectiveness of the presets depends on the original image quality, emphasizing the importance of lighting, camera settings, and wardrobe in the editing process.
