G-Presets – Olivia Markle Presets: Olivia is one rare photographer whose work truly reflects her personality. She is generous and daring in her adventures, full of enthusiasm, and will never stop inspiring you. Olivia spent years creating this strikingly versatile and unique pack. Her travels around the world and the many beautiful things she has seen inspired her to create this pack.

The Olivia Markle Presets bring out the best in color. They have classic warm undertones and idyllic cream skin tones. They also include enriched greens and heightened blues which add a new dimension of vibrancy to photos. There's plenty of pop whether you're shooting desert weddings in intense light, lush tropical rainforests, or taking candid selfies at waterfalls on your iPhone. Every preset has jazz and music to love. If you ever feel the need to reduce vibrancy in an image, there is an easy button that will allow you to do so. It's that simple. These presets will not disappoint.

Olivia Markle Presets includes 11 color presets and 1 BW preset, Creative Profiles, and 3 adjustment tools including Lens Corrections ON/OFF, and a Lower saturation Tool (please refer to * below for compatibility).

Below are before and after images that show how each preset alters an image with the same white balance and exposure.

- These preset only work with Lightroom Classic CC (version 7.5), Lightroom CC CC (version 1.3), and Adobe Camera Raw (10.5 or later). You must update any editing software to ensure that the presets work with earlier versions.
- Preset pack purchase does not include Irtemplate files.
- These presets can only be used with RAW images.
- These are Desktop Presets (NOT Mobile Presets).
- All Sales Final - No Refunds
