Blender Market - Autodepth Ai is an advanced AI-powered addon that transforms 2D images into 3D models with precision and ease.

It features AI-driven depth mapping to generate accurate height maps, enabling stunning 3D effects. The addon includes text-to-image generation, allowing users to create unique visuals through text prompts.

With seamless displacement mapping, users can apply depth with accuracy, eliminating manual adjustments. Designed for both professionals and hobbyists, AutoDepth AI boasts an intuitive interface that integrates effortlessly into Blender workflows. Its versatile capabilities are ideal for terrains, architecture, digital art, and other creative projects, offering fully manipulatable 3D models directly from 2D images.
