### Capture One Studio v16.5.5.7 (Mac):

The solution for studio photography offers enhanced workflows, collaboration, and efficiency tailored to professional studio environments.

#### Includes:

- **Live for Studio:** Enables real-time collaboration on a closed network without the Internet, ensuring secure, stable sessions and seamless offline feedback.
- **Improved Client Multi-Viewer:** Supports up to four additional viewer screens with customizable modes for team and client viewing during shoots.
- **Advanced AI Crop:** Automates cropping for consistency, with customizable rules, batch cropping, and preset options for streamlined adjustments.
- **Next Capture Backup:** Ensures image safety with automatic tethered image backups and a queue manager for uninterrupted backups.
- **Precision Workflow Tools:** Includes Tool Locks to prevent on-set errors, automated metadata and keyword application, and tools for accurate image positioning and comparison.
- **Photoroom Integration:** Allows background replacement and drop shadow generation directly in Capture One for faster e-commerce photography workflows.

The solution includes priority support and access to all Pro features, Live Unlimited, a specialized Live for Studio, and a mobile app for on-the-go shoots.
