Screaming Frog SEO Spider is a robust website crawler that stands as a cornerstone tool for SEO professionals and agencies worldwide. Offering cross-platform compatibility across Windows, macOS, and Linux, it empowers users with the ability to conduct comprehensive site audits, identifying and addressing a multitude of technical SEO issues efficiently.

With the capability to analyze both small-scale and extensive websites in real-time, **Screaming Frog SEO Spider** provides invaluable insights to aid informed decision-making. Users can swiftly uncover broken links, server errors, and redirects, facilitating seamless error resolution or site migration auditing. Moreover, the tool enables deep dives into page titles, meta descriptions, and duplicate content detection, ensuring optimal on-page optimization.

Advanced functionalities such as XPath data extraction, integration with Google Analytics, Search Console, PageSpeed Insights APIs, and JavaScript rendering for dynamic websites further enhance its utility. **Screaming Frog SEO Spider** also excels in visualizing site architecture, scheduling automated crawls, and facilitating crawl comparisons for tracking SEO progress over time.

Key Features of **Screaming Frog SEO Spider**:

1. Find Broken Links, Errors & Redirects
2. Analyse Page Titles & Meta Data
3. Review Meta Robots & Directives
4. Audit hreflang Attributes
5. Discover Exact Duplicate Pages
