

Unreal Engine - Victorian Interior Environment + ULAT v5.3

2025-02-10 16:37:02 [label](#) [我要反馈](#) [下载页面](#)

The **Unreal Engine - Victorian Interior Environment + ULAT** offers a comprehensive collection of 78 assets designed to furnish Victorian interior environments, enhancing the visual quality and detail of virtual productions or game environments.

Featuring assets crafted with unique concepts, the pack includes both daytime and nighttime maps across three distinct environments. With meticulous attention to detail and optimization for game readiness, the assets come with controllable parameters in material instances and support collision and multiple LODs. Supported on both Windows and Mac platforms, this pack provides high-quality visuals for diverse creative projects.
