Blender Market - Blender AI Library Pro v1.2.0:

Blender AI Library Pro is an advanced addon that integrates powerful AI tools into Blender, revolutionizing the 3D design process. It allows users to quickly generate detailed 3D models, PBR materials, and HDRIIs directly from text descriptions or images.

With features like text-to-image, image-to-3D, text-to-PBR materials, and text-to-HDRI generation, the addon enhances creativity and streamlines workflows. Fully integrated with Blender, it offers an intuitive interface for both beginners and professionals, enabling faster, more efficient design and boosting productivity in 3D projects.
