How to change images to an eye-catching blue color in Photoshop?

You can use "Dramatic Blue Photoshop Action".

Where can I download the product?

After subscription, You can download it for free from here.

Items to learn first:

- Ensure You're using the English version of Photoshop.
- Utilize 2500-3500px image dimensions for the best outcome and to prevent mistakes.
- Use RGB style and 8bits color.
- Use at 72dpi.
- Load the activity file beforehand.
- Make Sure the option"Insert" copy" into Copied Layers and Groups" is assessed.
- Must put the Brush style to normal and the Opacity and Flow of the Brush to 100%.
- If You're experiencing some mistakes, attempt to assess your Photoshop preferences. To do that, simply hold down the Alt+Ctrl+Shift keys (Mac: Command+Option+Shift) while starting up Photoshop. A Dialog box will appear asking in the event that you want to delete the preferences/settings file. Click Yes!
- Complete instructions are in the ReadMe.pdf file.

Documents Included:

- 1 Remarkable Blue Action. atn
- 1 ReadMe.pdf Document

What is Dramatic Blue Photoshop Action?

A "Dramatic Blue Photoshop Action" typically denotes a pre-defined series of instructions or commands within Adobe Photoshop. These actions are designed to alter a photograph or image, imparting a striking and predominantly blue-toned aesthetic. Photoshop actions serve as automated scripts, allowing users to apply a curated set of steps with a single click, facilitating the attainment of specific visual effects.
