Seamless Fire Transitions for AE VH-45882371: Seamless Fire Transitions is an awesome dynamic template with ten flame transitions that have optical effects. It is straightforward to use! Add it to your media files, and you can enhance your work. The perfect way to incorporate an element of action into your sports clips, extreme videos, presentations, and much more.

- Dynamic animations
- Full-color controls
- Optic effects
- No plugins
- Video tutorial included
- Compatibility to work with After Effects 2019 and above
