What's Included in the job:

- Graph 42
- Individual 12
- Pie graph 33
- Info 63
- Icon 140

Establish a Higher chart worth.

The chart itself computes the scale.

The section should always be less than the Maximum value or qual into the highest value.

The maximum value could be almost any: 100, 1000, or even 6800.

If the greater value is 100. Segments have to be from 0 to 100.

If the greater value is 1000. Segments have to be from 0 to 1000. If the greater Worth is 6800. Segments have to be to 6800.

In a single click, the percent symbol is switched off and on during the comp.

The chart itself computes the utmost value, medium value, minimal price.
