Grid Multiscreen Opener - AE Project VH-37870593: Simple and minimalist **After Effects** template to create a warm event opener, a fashion-related video, or an inspirational corporate opener.

It displays videos as if it were a gallery with several video screens. The screens are hung in front of the viewer and are replaced by with another as if you were viewing them in an exhibit. A black background, and precise smooth margins, all of it draw attention to the story of your video. The bright stickers help to focus viewers' eyes.

Write a message, your slogans, the title, and the words that describe your program and you. Add your video, text, or music, and you'll have an original video that has your own personal atmosphere. The video is extremely well-organized inside and simple to use.
